

OverhangingPartOBB
_Segment1D_Point

```
graph LR; A[OverhangingPartOBB_Segment1D_Point] --> B[Vector3D::CreateVectorDot]
```

A diagram showing a call from a function to a static method. On the left, a gray rectangular box contains the text 'OverhangingPartOBB_Segment1D_Point'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'Vector3D::CreateVectorDot'.

Vector3D::CreateVectorDot
